For over 30 years Monarch Agri have been a leading supplier to the UK agricultural market specialising in the supply of essential on-farm chemicals with proven efficacy including crop protection products, feed additives and horticultural minerals and nutrients.

With a large range of FEMAS approved products, we can deliver direct to farms via our purpose-built fleet eliminating any storage concerns.

Recognised across the country for our customer-focused approach and dependable distribution service, we work hard to build lasting relationships, which is why our customers return to us, season after season.

Disclaimer : In order for the additive to work, you must always follow the recommended dosage rates and ensure the dosing equipment is calibrated correctly prior to use. The use of additives cannot be expected to overcome adverse weather conditions, poor feeding-out procedures, incorrect dosing rates, poor compaction, poor or inadequate sealing and soil or slurry contamination and is therefore not warranted against these poor practices and conditions. If unsure of applications rates or methods, please seek advice.
